

Jayveer Vasava

Cyber Security | SOC | Digital Forensics (DFIR) | AI Security

Vadodara, Gujarat, India | jayveervasava0710@gmail.com | jayveerv.github.io | linkedin.com/in/jayveer-vasava-93779038b | github.com/jayveerv

Summary

M.Tech Cyber Security student at Parul University with a core computer science background. Research focus on automated digital forensics across Windows, Linux and cloud environments, with a paper under peer review at IJICS (Inderscience). Google Cybersecurity Professional Certificate holder and regular CTF participant. Open to remote SOC Analyst, Security Analyst and Digital Forensics roles.

Education

M.Tech, Computer Science & Engineering (Cyber Security) Parul Institute of Engineering & Technology, Parul University	2025 – 2027
B.Tech, Computer Science & Engineering Parul University	2021 – 2025
Higher Secondary, Science (PCM) RPTP School, Vidyanagar	2019 – 2021

Research

A Scalable Cross-Platform DFIR Framework for Automated Evidence Collection, Correlation and Cloud Forensic Investigation M.Tech dissertation, guided by Dr. Ankita Gandhi	2026 – Present
- Framework to automate evidence collection across Windows, Linux and cloud platforms and correlate it into a single investigation timeline. - Research paper submitted to the International Journal of Information and Computer Security (Inderscience); passed initial screening, under peer review. - Phase I complete; implementation in progress (github.com/jayveerv/cross-platform-dfir-framework).	
AI-Based Cloud Intrusion Detection: Review Study	Jul 2025 – Dec 2025
Reviewed machine learning and deep learning approaches to intrusion detection in cloud environments, comparing datasets, accuracy and open research gaps.	

Experience

Cyber Security Intern, SkillFied Mentor	Feb 2026 – Mar 2026
Web Development Intern, Arth Consultancy Services	Dec 2024 – Feb 2025
Summer Intern, byteXL	May 2024 – Jun 2024
Data structures and algorithms with Python, and databases.	

Certifications

- Google Cybersecurity Professional Certificate** (Coursera, Jan 2026), 8 courses incl. Linux & SQL, Detection & Response, Python automation
- HackerRank: SQL (Advanced), SQL (Intermediate), SQL (Basic), Python (Basic)
- OSINT Fundamentals (CyberSisco, 2026); Digital Forensic Investigation Process (Forensics Digest, 2025)
- Data Analytics with Python (NPTEL, IIT Roorkee, 2024); Programming Essentials in C++ (Cisco, 2023)

CTF Competitions

Cybertec8 CTF Battle 2026 (Oct 2026) | SecLeaf Q2 CTF 2026, team Catch Busters (May 2026) | Breach Havoc CTF, TryHackMe Parul University Chapter (Mar 2026)

Skills

Security: SOC monitoring, threat detection, incident response, digital forensics, network security, vulnerability assessment, OSINT, ISO 27001 (ISMS)
Technical: Linux, SQL, Python, data analysis, Excel, MERN stack, PHP & MySQL
AI & automation: prompt engineering, AI tools, no-code workflow automation
Languages: English (professional), Hindi (full professional), Gujarati (native)
